## Color The Pumpkin!

Show off your amazing art skills and create a colorful pumpkin! Did you know that a pumpkin is actually a fruit? Its a fruit because it has seeds in it!

## Can You Make It Through The Maze?

## WHY LEAVES CHANGE COLORS

When there is less sunlight and it gets colder, the trees stop making chlorophyll. Chlorophyll is the green stuff that helps them make food and give them their color we know and love!

## 13 PUMPKIN COLORS AND THEIR MEANINGS

**ORANGE** pumpkins are the standard color you'll find at any pumpkin patch.

**TAN** and **RED** pumpkins are great for eating (seeds and puree).

**YELLOW** and **WHITE** pumpkins are ornamental and bred to look unique.

**DARK** and **LIGHT GREEN** pumpkins represent the integration of spirit and earth, unconditional love, and joy.

**BLACK** and **BLACK AND ORANGE** pumpkins represent the spooky spirit of Halloween, darkness, and the transition from fall to winter.

**TEAL**-painted pumpkins represent food allergies; either of the child trick-or-treating or the home passing out candy.

**BLUE** pumpkins represent autism awareness. A child on the spectrum or a house with a loved one on the spectrum might sport one.

**PINK** pumpkins represent breast cancer awareness. Those with a loved one who has the disease might paint pink pumpkins.

**PURPLE** painted pumpkins represent epilepsy support or that there is someone with epilepsy in the home.
