What is a Logo? A logo is like a special picture or symbol that helps people recognize a brand or company. It's the unique design that shows what the company is about and makes it stand out, just like a superhero has a special emblem that everyone knows!

CREATE YOUR OWN LOGO!

Think of a business idea, then draw up a logo for it in the space below!

For example: My business is selling Ice Cream, so I might want a logo that looks like one of these:

A large, empty white rectangular box with a black border, intended for the user to draw their own logo.
